We will advertise your business or services on the banners as indicated on our website.

How it works

- Your business or service will be featured on our website as a side panel banner on our Homepage or any other pages where the vacant banner features.
- Your advert will be featured as a flash banner
- As soon as we agree on the final production of the banner, the advert will be live the same day and you will be notified when the advert will expire.
- In case you want to renew your banner you have to make your desire known to us 5 days before your running campaign expires. Otherwise we shall assume that you no longer want to continue with your advert and we will stop the campaign without prior notice.

Please contact us if you do not understand any of the terms and conditions of our advertising service.
